

The balloon won't fly away like that.

The balloons flew away with a house in the cartoon.

Those balloons were probably filled up with helium gas.

You are exhaling carbon dioxide.

in Science **Carbon dioxide is heavier than oxygen,**

so your balloon will not fly.

Oh! So, is helium lighter than oxygen?

That's right!

► **COVID-19**
**Protect yourself
and others**

	Cough and sneeze into a tissue or elbow.		Wash your hands thoroughly and regularly.
	Keep your distance. Stand 1 metre or 3 feet apart.		Avoid shaking hands.
	Stay at home if you feel ill.		Be kind, avoid stigma.
